II- ACCOUNTING POLICIES AND PRACTICES APPLIED AT THE COMPANY

1- Accounting Period and Currency

The Company's accounting period follows the calendar year, starting from 01 January and ending on 31 December.
 The currency used in accounting is Vietnamese Dong (VND).

2- Applicable Accounting Standards and Regulations

The Company applies the Vietnamese Accounting System issued under Circular No. 200/2014/TT-BTC dated 22 December 2014, by the Ministry of Finance and Circular 53/2016/TT-BTC dated 21 March 2016, amending and supplementing certain provisions of Circular 200/TT-BTC.

Statement of Compliance with Accounting Standards and Regulations:

The Company has adopted Vietnamese Accounting Standards and related regulatory documents issued by the government. The financial statements are prepared and presented in accordance with the applicable standards and regulations.

3- Basis for Preparing Financial Statements

The financial statements are presented on the historical cost basis.

- The Company's separate financial statements are prepared by consolidating the transactions and events occurring at the subsidiaries and the Company's office.

- Users of these separate financial statements should read them in conjunction with the consolidated financial statements of the Company and its subsidiaries to obtain full information about the financial position, operational results, and cash flows of the entire group.

4- Financial Instruments

Initial Recognition

The Company's financial assets are composed of cash and cash equivalents, investments, trade accounts receivable and other receivables. At the time of initial recognition, financial assets are recognized at purchase price/issuance costs plus directly attributable transaction costs.

The Company's financial liabilities include loans, payables to suppliers, and other payables. These are recognized at issuance price plus directly attributable transaction costs.

Subsequent Measurement:

Currently, there are no regulations on revaluation of financial instruments subsequent to initial recognition.

5- Foreign Currency Transactions

Foreign currency transactions during the fiscal year are converted into Vietnamese Dong at the exchange rate on the transaction date. This actual transaction exchange rate is determined based on the following principle:

- For buying and selling foreign currency: the exchange rate is set in the foreign exchange contract between the Company and the commercial bank.

- For recognizing receivables: the exchange rate is the buying rate of the commercial bank designated by the Company.

- For recognizing payables: the exchange rate is the selling rate of the commercial bank where the Company expects to conduct transactions.

The exchange rate used to revalue monetary items denominated in foreign currencies at the time of preparing the financial statements is determined based on the following principle:

- For items classified as assets: The exchange rate applied is the buying rate of the commercial bank with which the Company regularly transacts.

- For foreign currency deposits: The exchange rate applied is the buying rate of the bank where the Company holds its foreign currency accounts.

- For items classified as liabilities: The exchange rate applied is the selling rate of the commercial bank with which the Company regularly transacts.

All foreign exchange differences arising during the year and those from revaluation of foreign currency-denominated monetary items at the reporting date are recognized in the profit and loss for the fiscal year. The foreign exchange gains arising from the year-end revaluation of monetary items denominated in foreign currencies shall not be used for profit distribution or dividend payment.

6- Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, bank deposits, cash in transit, and short-term investments with maturities of 3 months or less from the purchase date, easily convertible to a known amount of cash, and subject to insignificant risk of changes in value.

7- Financial Investments

Held-to-maturity Investments: These include term deposits held to maturity for the purpose of earning periodic interest and other held-to-maturity investments.

Investments in Joint Ventures and Associates: These are initially recognized in the accounting records at cost. After initial recognition, the value of these investments is determined at cost less any provision for impairment.

Investments in Other Entities: These include investments in equity instruments of other entities over which the investor has no control, joint control, or significant influence. The initial carrying amount of these investments is determined at cost. After initial recognition, the value of these investments is determined at cost less any provision for impairment.

Provision for Investments: The provision for investments is made at the end of the year as follows:

- For investments in joint ventures and associates: The impairment provision is made when the investee incurs a loss, based on the financial statements of the joint venture or associate at the time of provisioning.

- For long-term investments (not classified as trading securities) and those with no significant influence over the investee: If the investment is in listed shares or the fair value of the investment can be reliably determined, the provision is based on the market value of the shares. If the fair value of the investment cannot be determined at the reporting date, the provision is based on the investee's financial statements at the time of provisioning.

- For held-to-maturity investments: The provision is made based on the recoverability of receivables in accordance with legal regulations.

8- Receivables

Receivables are monitored in detail by maturity, debtor, foreign currency type, and other factors based on the Company's management needs.

Provision for Bad Debts: A provision is made for receivables that are overdue based on the terms of the economic contract, debt agreements, or commitments, and for receivables that are not yet due but have a low likelihood of recovery. In this case, the provision for overdue receivables is based on the repayment terms in the original sales contract, without considering any extensions agreed between the parties. The provision for receivables not yet due but where the debtor is in bankruptcy or undergoing liquidation, is based on the financial status of the debtor.

9- Fixed Assets

Tangible and intangible fixed assets are initially recorded at cost. During their use, tangible and intangible fixed assets are recorded at their original cost, less accumulated depreciation and the carrying value.

Depreciation: Depreciation of fixed assets is calculated using the straight-line method over the estimated useful life of the assets.

<u>Types of fixed assets</u>	<u>Years</u>
Buildings and structures	06 – 44
Machinery and equipment	5
Vehicles and transmission equipment	05 – 11
Office equipment and management tools	03 – 10

	Land Use Rights	34 - 50
	Software	03 - 05
10-	Investment property	
	Investment property is initially recognized at cost.	
	For investment property leased under operating leases, it is recognized at the original cost, accumulated depreciation, and the remaining value.	
	Depreciation is calculated using the straight-line method, with the estimated useful life as follows:	
	Buildings, structures: 5-20 years.	
	Investment property is no longer presented in the financial statements once it has been sold or is no longer in use and is deemed not to generate future economic benefits from its disposal. The difference between the net proceeds from the sale of the property and its carrying value is recognized in the income statement during the disposal period.	
	The transfer from owner-occupied property or inventory to investment property occurs only when there is a change in the purpose of use, such as when the owner ceases to use the property and starts leasing it to others, or when the construction phase ends. The transfer from investment property to owner-occupied property or inventory occurs only when there is a change in the purpose of use, such as when the owner starts using the property or begins preparations for sale. The transfer from investment property to owner-occupied property or inventory does not affect the carrying amount or residual value of the property at the date of transfer.	
11-	Construction in Progress	
	Construction in progress reflects costs directly related to the construction of factories and the installation of machinery and equipment that are not yet completed or installed. Assets under construction and installation are not subject to depreciation.	
12-	Operating Lease	
	An operating lease is a lease of fixed assets in which most of the risks and rewards related to ownership of the asset belong to the lessor. Lease payments under an operating lease are accounted for in the income statement using the straight-line method based on the lease term.	
13-	Prepaid Expenses	
	Expenses incurred that relate to business operations over multiple accounting periods are recognized as prepaid expenses and are gradually allocated to the income statement in future periods.	
	Prepaid land lease expenses include payments for land leases, including amounts related to land leases for which the company has received land use rights certificates but does not meet the criteria for recognizing intangible fixed assets under Circular No. 45/2013/TT-BTC issued by the Ministry of Finance on 25 April 2013, regarding the management, use, and depreciation of intangible assets. These expenses are recognized in the income statement using the straight-line method based on the lease contract term. The allocation of long-term prepaid expenses into production and business costs for each accounting period is based on the nature and level of each type of expense, and an appropriate method and allocation criteria are selected. Prepaid expenses are allocated gradually to production and business costs using the straight-line method.	
14-	Trade payables	
	Payables are tracked by maturity, payee, currency type, and other factors as required by the company's management.	
15-	Loans	
	Loans are tracked by individual lender, loan agreement, and the repayment schedule of the loans and financial leases. For foreign currency loans, detailed tracking is performed based on the original currency.	
16-	Borrowing Costs	
	Borrowing costs are recognized as an expense in the period in which they occur, except for borrowing costs directly related to the construction or production of an asset under construction, which are capitalized (added to the asset's cost) when the conditions specified in Vietnamese Accounting Standard No. 16 "Borrowing Costs" are met. Additionally, for loans related to the construction of fixed assets or investment properties, interest is capitalized even if the construction period is less than 12 months.	
17-	Accrued Expenses	
	Accrued expenses are recognized for goods or services received from vendors during the reporting period but not yet paid, and other accrued expenses are recognized in the income statement for the period.	
	The recognition of accrued expenses in the income statement follows the principle of matching revenues with expenses incurred during the year. Accrued expenses will be settled with actual costs, and the difference between estimated and actual costs will be adjusted accordingly.	
18-	Unearned Revenue	
	Unearned revenue includes pre-received amounts from customers for services to be provided in future periods, such as advance payments for leased properties.	
19-	Shareholders' Equity	

The owner's investment is recognized based on the actual capital contributed by the owner.

Retained earnings reflect the company's net income or loss after corporate income tax and the distribution of profits or handling of losses. In the case of paying dividends or profits to shareholders exceeding the retained earnings, it is recognized as a reduction in contributed capital. Retained earnings can be distributed to investors based on their ownership proportion after approval by the General Assembly and in accordance with the company's charter and applicable Vietnamese law.

The company reserves the following funds from its after-tax profit based on the board of directors' proposal and approval at the annual general meeting:

- Development Fund: Established for expanding or deepening the company's operations.
- Reward, Welfare Fund, and Executive Bonus Fund: Established to reward and incentivize employees, improve benefits, and are reported as a liability on the balance sheet.

Dividends payable to shareholders are recognized as a liability on the balance sheet once the board of directors has declared the dividend and the securities registration center has announced the dividend payout date.

20-

Revenue

Revenue from Services

Revenue from providing services is recognized when all of the following conditions are met:

- The revenue is reasonably certain.
- There is a probability that economic benefits will flow to the company from the transaction.
- The portion of work completed as of the balance sheet date can be determined.
- The costs incurred for the transaction and the cost to complete the service transaction can be measured.

Financial income

Financial revenue from interest, royalties, dividends, profits, and other financial income is recognized when both of the following conditions are met:

- There is a probability that economic benefits will flow to the company from the transaction.
- The revenue is reasonably certain.

Dividends and profits are recognized when the company has the right to receive dividends or profits from investments.

21-

Cost of Goods Sold

The cost of goods sold in the year is recognized in line with the revenue recognized in the year and follows the prudence principle. Cases of inventory loss or excess material costs beyond normal limits, inventory shrinkage, etc., are fully recognized as the cost of goods sold in the year.

22-

Financial Expenses

Financial expenses include:

- Costs or losses related to financial investments.
 - Borrowing costs.
 - Provisions for devaluation of trading securities, provisions for loss in investments in other companies, foreign exchange losses, etc.
- These items are recognized based on the total amounts incurred during the year and are not offset against financial income.

23-

Corporate Income Tax

Current income tax expense is determined based on taxable income in the year and the applicable income tax rate for the current fiscal year.

The company applies a 20% income tax rate for taxable activities in the fiscal year ending 31 December 2024.

24-

Earnings Per Share

Basic earnings per share is calculated by dividing the profit or loss after tax attributable to ordinary shareholders (after adjusting for provisions for the Reward, Welfare Fund, and Executive Bonus Fund) by the weighted average number of ordinary shares outstanding during the year.

25-

Related Parties

A related party is defined as a party that can control or significantly influence the decisions of another party in relation to financial policies and operations. The company's related parties include:

- Enterprises directly or indirectly controlling, controlled by, or under common control with the company, including affiliates.
- Individuals who directly or indirectly hold voting rights in the company and have significant influence over the company, key management personnel, and close family members of these individuals.
- Enterprises in which the above-mentioned individuals hold, directly or indirectly, a significant portion of the voting rights or have significant influence.

In evaluating relationships with related parties for financial reporting purposes, the company considers the substance of the relationship over its legal form.

26- Segment Reporting

Since the company's primary business is shipping agency and related services in Vietnam, the company does not present segment reporting by business sector or geographical region.

III ADDITIONAL INFORMATION FOR ITEMS PRESENTED IN THE BALANCE SHEET

1 Cash and cash equivalents	30/06/2025	01/01/2025
Cash	63,573,860	75,949,752
Cash in bank	101,387,521,250	72,758,663,668

Tax Code: 0300437898

Financial statement

For the period from 01 January 2025 to 30 June 2025

(4) On 01 April 2014, Vietnam Maritime Agency Joint Stock Company (VOSA) and Yusen Logistics (Singapore) Pte., Ltd. established Yusen Logistics and Vietnam Transport Limited Liability Company with a charter capital of USD 100,000 , with VOSA holding a 51% ownership stake. According to the joint venture agreement signed with Yusen Logistics (Singapore) Pte., Ltd. on 10 September 2013, VOSA granted Yusen Logistics (Singapore) Pte., Ltd. the right to manage and control Yusen Logistics and Vietnam Transport Limited Liability Company in exchange for an annual fixed management fee of USD 40,000 from Yusen Logistics (Singapore) Pte., Ltd. The annual profits of the joint venture will continue to be distributed based on the ownership ratio of both parties.

(5) On 26 March 2014, Vietnam Maritime Agency Joint Stock Company (VOSA) and Yusen Logistics (Singapore) Pte., Ltd. (YLSG) agreed to sign a capital transfer contract. Under this agreement, VOSA agreed to transfer a portion of its capital in Yusen Logistics Vietnam Limited Liability Company (hereinafter referred to as "the Company"), corresponding to 50% of the charter capital (equivalent to USD 200,000). According to the transfer contract, VOSA will continue to receive profits from the undistributed after-tax profits of the Company accumulated up to 31 March 2014, based on the ownership ratio before the transfer (VOSA's ownership percentage is 51%, YLSG's is 49%). This profit will be distributed to the parties in seven (07) equal annual payments over seven (07) fiscal years after 31 March 2014 (the 7-year period from 2014 to 2020), with VOSA receiving USD 15.5 billion each period. After 31 March 2014, the Company will distribute profits from other after-tax profits, with VOSA receiving a guaranteed return of 5,000 USD and YLSG receiving the remaining after-tax profits of the Company, after deducting the guaranteed returns.

(6) Established in 1991, the Lotus Joint Venture Company (LOTUS Port) is the first joint venture in Vietnam in the field of international seaport operations, formed between VIETTRANS, VOSA, and the foreign partner BLASCO - Ukraine. At this company, VOSA made an initial investment of USD 23,705, with an ownership percentage of 0.27%. Annually, the joint venture distributes profits and retains a portion of the profits for reinvestment. The annual profit VOSA receives is negligible due to its low ownership percentage.

11 PREPAID EXPENSES

	30/06/2025	01/01/2025
a) Short-term		
- Tools and equipment awaiting allocation	36,269,477	49,261,444
- Manufacturing costs	-	189,589,034
- Insurance fees	15,582,876	-
- Other short-term prepaid expenses	3,464,617,994	4,454,218,403
	3,516,470,347	4,693,068,881
b) Long-term		
- Tools and equipment awaiting allocation	39,198,257	62,187,209
- Prepaid land lease (*)	52,415,580,263	53,034,308,231
- Other long-term prepaid expenses	14,400,795	28,261,010
	52,469,179,315	53,124,756,450

(*) These are prepaid land lease payments that the Company has made in a lump sum for the entire lease term of land plots in Ho Chi Minh City, Da Nang City, and Hai Phong City. The main portion relates to the prepaid land lease for the property at 25 Dien Bien Phu Street, May To Ward, Ngo Quyen District, Hai Phong City, for a lease term of 50 years (from 24 June 2016, to 24 June 2066). The Company has completed the procedures and has been issued a 'Certificate of Land Use Rights and Ownership of Housing and Other Assets Attached to Land' by the government on 17 May 2017. The initial recorded value of the land use rights is VND 60,896,981,000. The unallocated remaining value as of 30 June 2025, is VND 50,240,009,354 (the recorded value as of 01 January 2025, is VND 50,848,979,162, with prepaid land lease expense allocated in first 6 months being VND 608,969,808). These costs are recorded and reported in the income statement using the straight-line method based on the lease term.
